General Manager Search Update

Dear Member,

I thought it was important to bring you up to date on the search for your next general manager.

Your board of directors has enlisted the help of the National Rural Electric Cooperative Association (NRECA). Their executive search program has served Co-ops and other consumer-owned electric utilities for over 35 years. They possess the largest comprehensive national database of qualified candidates in the cooperative community and utility industry in general. To date, they have placed over 475 CEOs, General Managers and other cooperative leaders.

Board Chair, Evan Barnes emphasized the need to find the right person for the job. "We are taking our time to make certain the next general manager is a perfect fit for our members, our employees and the community at large."

Applications were accepted through September 13. The board will screen applicants on October 25 and interviews will take place on November 13. The hope is that the new manager can begin his duties the first of next year.

In the meantime, inside staff continues to conduct business as usual, and outside crews work within various wildfire restrictions to maintain and upgrade the system.

If you have any questions about the process or status of your potential new manager, please don't hesitate to give me a call. I'm happy to share what I can.

Best Regards,

Werner Buehler
General Manager
